FOLDABLE DUST MASK

Model: 110 P2DV

Cod.: WSB14011059P20

The 110 P2DV mask is a protective equipment against toxic solid dusts and solid or liquid aerosols (water based or oleic). It has a perfect fit and a one-piece tie to improve the fit and comfort of the user. It is fully welded and is antilux, does not release fibers, which makes it perfect for the automotive and white lines industry. . Also suitable for the chemical industry, foundries, steelworks, textile industry, pharmaceuticals. It contains an exhalation valve that provides greater comfort. "D": Mask resistant to obstruction over time (Dolomite dust test) that improves the comfort of use.

FOLDABLE DUST MASK

Model: 110 P2DV

Cod.: WSB14011059P20

Classification

Mask in accordance with the provisions of Regulation (EU) 2016/425.

Protection class mask FFP2 NR (not reusable) in accordance with EN 149: 2001 + A1: 2009

Marking

Material

Body: Special filter material

Lugs: Polypropylene

Harness: Natural rubber

Valve: Polypropylene

Storage

Store at a temperature between -10°C and + 40°C with a maximum relative humidity of 80%.

Dimensions / Packaging

Each mask is supplied individually packed and in a box of 20 units.

EXPIRATION

The mask properly preserved in its original packaging has an expiration date of five years from the date of production. This date is indicated on the packaging.
